Dear John:

Thanks so much for the positive feedback on the Summit. It was a great opportunity to create some momentum in our school districts regarding the Cross Content/Workplace Readiness Standards. The district/student presentations, and especially the one by Corporation Physics, provided the energy and excitement as well as valuable information. You guys were the hit of the show.

I would love to visit your program. My secretary, Josie, will call to set it up. Also, let me know how your presentation goes in Lawrence Township. I think that is the district that wants you to present.

Finally, thanks for the battery. I need something to keep me charged up. Actually, what really charges me up is to see great students and great teachers, such as those at Kearny.

Sincerely,
