Mr. John A. O'Hara, Master Teacher
Kearny High School
336 Devon Street
Kearny, NJ 07032

Dear Mr. O'Hara:

I was so very impressed by your student's presentation of Corporate Physics at the School-to-Careers Conference this past May.

This year we in the Departments of Labor and Education are "in" our third year of bringing School-to-Career/Employment Service educator-interns, 42 in number, through their "career preparation education." They started their six-week tenure on our local Employment Service offices this past Monday with a full-day orientation. Mid-term and Wrap-Up meetings are scheduled for all day on Friday, July 24th and Thursday, August 13th, respectively, in the 13th Floor Auditorium of the Labor Building in Trenton.

We are fervently hoping that you will find time to describe in detail to this audience the configuration, implementation and positive outcomes surrounding your school's use of Corporate Physics. It certainly elicited a lot of educator-intern enthusiasm and imagination among the attendees at the annual STC Conference!

Please advise me at your earliest convenience if you can accommodate this request to any degree on either of the two above-mentioned dates. You may select your starting time on the 24th; I expect that *nothing less* that 30 minutes would do justice to your story.

My telephone number is 609-292-3809; my FAX is 609-984-3562.

Thank you very much for your serious consideration of this request!

Sincerely,

Carol L. Hoeman
Coordinator, STC Programs

c: Phyllis Garnant, NJDOE
